1% Grammar vs. 100% Grammar

We need complete grammar for exams,
but we need only 1% for speaking.

Learn how to speak English confidently by using only 1% of English grammar that you already know (without learning any more grammar).

This works in 2 steps:

1. First, you'll become confident in using 1% grammar (and avoid the remaining 99%).
2. Then, this confidence allows you to start speaking confidently (using just the 1% of grammar).

Why Schools and Coaching Institutes Fail to Give You Confidence in Speaking English (It is Not Your Fault)

They Teach
Complete
Grammar

Both schools and coaching classes teach complete grammar. It is the fault of school boards, NCERT, and coaching institutes.

Schools Make an Additional Mistake

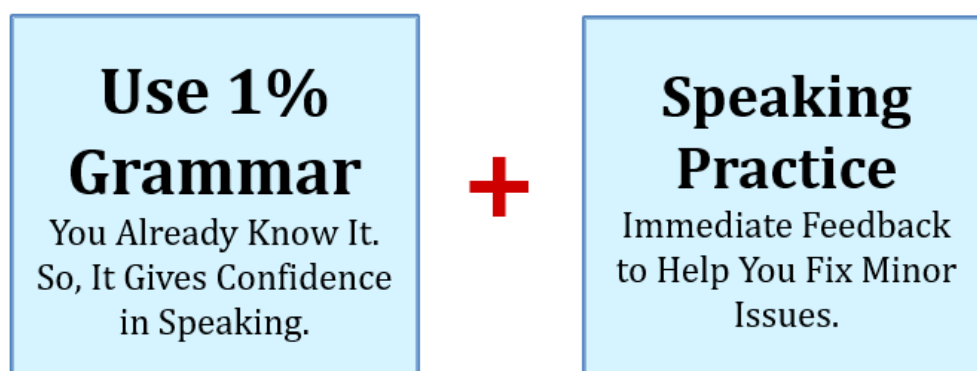

NO
Speaking
Practice

Schools don't spend time for speaking practice. They focus only on written exams.

The Solution: Don't Make these 2 Mistakes

Because we know the exact mistakes, the solution becomes clear:

- Use extremely limited grammar
- Practice speaking

Any successful method must use limited grammar and focus on speaking practice.

You'll Become Fluent / Confident in Speaking English

To me, being fluent or confident means being comfortable when speaking like a 7-year-old child.

Children speak easily and effortlessly without hesitation or fear of making mistakes. They don't worry about perfection or looking stupid. And neither should we.

Mr. Lalu Prasad
Yadav, a Politician

7-Year Old

Consider Mr. Lalu Prasad Yadav, a politician from Bihar.

Is his English really good? Is his Hindi really good? Not really.

But, is he confident and able to communicate effectively? Of course, yes.

Is he worried about making mistakes when speaking? No.

We call this being fluent or confident.

How This Method Was Developed

I Struggled, But You Don't Have to ...

Over 40 years ago, I clearly remember the day I was going to BITS Pilani to start my engineering education.

It was a very hot day at the Chirawa railway station (near Pilani). I met Venkat Reddy from Andhra Pradesh who was also going to join BITS.

I started speaking in Hindi.

Venkat said, "I don't know Hindi" and started speaking in English.

I hesitated and said, “I do not know English” and we both just sat there without speaking.

I don't want anybody to struggle with English as I did, and that is why I've created this method.

Raj Bapna

~~Hello~~: My name is Raj Bapna. I was born in Udaipur, Rajasthan.

I studied in Hindi-medium schools.

Like many non-English medium students, I did not get a chance to speak English in school.

In college, I tried everything including:

- Reading newspapers
- Reading novels
- Watching videos and movies
- Speaking in front of a mirror

But nothing worked and I felt embarrassed and unsure of my future success.

Finally, after years of struggle, I became confident in speaking English.

I worked as a Software Engineer at Intel in California (USA) and became a best-selling author of computer books in the US. I tell you this not to brag about myself, but so that you can be sure the method is proven and will work for you.

My computer books published in the USA include a best-seller

My best-selling book in India that helped over 5 lakh students.

Because I suffered from a "lack of confidence in speaking English", I don't want others to suffer. That is why we created the 1% Grammar Method and decided to write articles and videos to help people like myself (and you).

I have used simple grammar both for speaking and writing for over 35 years with success. Now, I want to help you do the same.

30 Years in the Making ...

It Took Me 2 Years to Create the "25% Grammar Method" in 1994. Then, It Took 28 More Years for the "1% Grammar Method"

This is the first and only method to use very limited grammar for confidence in speaking English.

This did not happen overnight.

I knew that trying to use full grammar was the main source of the problem.

So, when I returned from the USA, we created a small 120-page book in 1994 to teach how to use only 25% of grammar for better speaking and writing.

Finally, another 28 years later, during the pandemic lockdown, I figured out that we need only 1% of grammar.

Tested and Proven with Live Online Training

I started testing the method in 2021.

My students included doctors, engineers, professors, CA, salespersons, PhDs, and more.

How It Works: 3 Principles, Some Shortcuts, and Speaking Practice

Here's what you do: avoid difficult words, passive voice, and complicated sentences.

Practice using the principles and shortcuts.

Example Shortcut #1

In my 7 years in the USA, I never heard anybody use SHALL, so we don't have to use "SHALL".

- Use only "WILL".

This shortcut eliminates any doubt and removes any hesitation, so you speak confidently.

Example Shortcut #2

For past tense, don't use past perfect and past perfect continuous tenses.

Or, use just simple past and past continuous tenses.

These are sentences like:

- I was lucky. We were lucky. You were lucky.
- I worked hard. We worked hard. You worked hard.
- I was working. You were working. They were working.

This shortcut eliminates complicated sentences for the past tense, so you speak confidently.

Example Shortcut #3

Use simple words and short sentences.

Use simple words that you know and the listener also knows. Avoid complicated words because the listener may not know them.

Use Only the 1% Grammar Below

Here is the 1% grammar that I use in training.

is, are, am	I am lucky. We are lucky.	You are lucky.	He is lucky. They are lucky.
work works	I work hard. We work hard.	You work hard.	He works hard. They work hard.
is, are, am working	I am working hard. We are working hard.	You are working hard.	He is working hard. They are working hard.

have, has worked	I have worked hard. We have worked hard.	You have worked hard.	He has worked hard. They have worked hard.
have, has been working	I have been working hard. We have been working hard.	You have been working hard.	He has been working hard. They have been working hard.

was, were	I was lucky. We were lucky.	You were lucky.	He was lucky. They were lucky.
worked	I worked hard. We worked hard.	You worked hard.	He worked hard. They worked hard.
was, were working	I was working hard. We were working hard.	You were working hard.	He was working hard. They were working hard.

will work	I will work hard. We will work hard.	You will work hard.	He will work hard. They will work hard.
